

# THE DEMO

It's  
called  
“Lakmé  
Aqua Gel”  
pack  
after all.

Let's have a play  
with water, serum,  
lotion and sun then.  
At some point the  
water/serum collides  
into a light cream.  
The watery texture,  
its lightness on the  
skin is what makes  
this product unique  
and attractive.
